# VINTAGE BEER

## Important Notes on Vintage Beer

Certain beer styles can benefit from extra time in the bottle. While they don't need additional years to mature after bottling, cellaring the right beer can produce intriguing results, teasing out new and unexpected flavor experiences over time. The Porter has been cellaring beer for more than a decade now, and over the years has gathered a wide collection of these styles. The gourmand, connoisseur and adventurous will delight in the possibilities!

Because cellared beer changes considerably over time, we cannot guarantee a particular flavor profile of any of the vintage beer. Think of it as an ale adventure.

If you'd like to experience beer time travel, try a few different years at a time (known as a Vertical). Look for the same beer with different years on the menu to compare the differences!

Vintage beer is stored and cellared at 50-55°F. If you would like it chilled, just ask (and allow us 5-10 minutes to chill it for you).

## Verticals

All items with the (\*) icon indicate you can try this beer as a vertical. For vertical pricing\*, please choose two or more of the same bottles with different vintages.

(\*) Verticals receive a 20% discount on each bottle. Certain bottles do not qualify for vertical pricing. Dine-in only.
